Education

Swami Keshvanand Institute of Technology m&g

B. Tech, Electronics and communication engineering

Jaipur, India

July 2019 – July 2023

Shiv Jyoti Sr. Sec. School

Higher Secondary education

Kota, India

July 2018 – Apr 2019

- Percentage: **74.4/100**

Shiv Jyoti Sr. Sec. School

Secondary education

Kota, India

July 2016 – May 2017

- CGPA: **10 /10**

Experience

ConsultADD Inc.

Trainee Engineer Intern

Pune, India

Sep 2022–May 2023

- Completed comprehensive management trainee program on company operations, policies, and procedures.
- Shadowed senior engineers, gaining exposure to document and project management.
- Screened and assessed USA candidates for contract roles, ensuring alignment with requirements.
- Coordinated document transfers between internal systems and clients.
- Engaged with candidates for feedback, collaborating with cross-functional teams on projects.

Genus power

Embedded System Engineer Trainee

Jaipur, India

Jun 2022 – Jul 2022

- Familiarized with microprocessor and microcontroller architectures.
- Understand fundamentals of microprocessor design, operations, and c++ programming.
- Learned about sensor types, principles, and applications in embedded systems.
- Gained hands-on experience in sensor interfacing and programming for data acquisition.

Enovate Skill

Robotics Internship

Jaipur, India

Sep 2021 – Oct 2021

Technical Skills

Languages: C, C++ , Python

Canva: UI/UX

Web development: HTML, CSS, JavaScript, Bootstrap , mongodb

Skills: Problem solving, Arduino uno, Ms office

Projects

Smart Glove for Sign Language Detection

- Developed a sign language device using Arduino Uno and gloves for communication assistance.
- Integrated flex sensors on gloves to detect hand movements and gestures.
- Programmed Arduino in c++ to interpret sensor data and generate corresponding ASL gestures.
- Utilized a speaker to provide auditory feedback for detected gestures.
- Conducted sensor calibration for accurate gesture recognition.
- Demonstrated commitment to accessibility and assistive technology.
- Documented project progress and procedures.

Gym Universe Website Project

- Developed a gym website using HTML, CSS, and JavaScript.
- Features sections for About, Classes, and Contact.
- Dynamically lists classes using JavaScript for real-time updates.
- Responsive design ensures compatibility across devices.
- Clean code structure for easy maintenance and scalability.
